# About Us

Scribbled space is a journey started out with two zealous, highly creative, and experienced minds coming together with the same vision. Scribbled Space for us have been very easy to work with.

Common Sense, Strategic Thinking and Intelligent Ideas as simple as that with us, they connect.

Its great to see such young talented girls, not only doing awesome designs and putting their skills to work timely. Amisha and Chaitrali really know how to make a career out of it. They are quiet professional and brilliant in their work.

There is no denying the fact, Scribbled Space has very brilliant design heads running it. Hope to see them grow and lucky to be a part in their journey.

**Megh Doshi**  
Butter Branding

Certainly the most humble bunch of people in the business. I practically gave them an open brief and they helped me get it right before initiating the project. I believe digital assignments are all about good planning and this team is capable of delivering it with consistency.

# TESTIMONIALS

Working with Scribbled Space is an amazing experience so far and continuing. They are professionals and are very creative. We are doing social media design and content work from them. Their work speaks. Small brands are becoming bigger. Keeping branding concepts also with graphic designing will add a star in their work. If we look at prices also, they are friendly. There is always more scope for everyone, I wish this team good luck and my wishes are always there

**Sonu and Sushil Jain**

Scribbled Space for me has been a very smooth and easy process. I wanted to design my logo and gave them the brief of how I wanted it to be and they delivered it perfectly and much better than what I had imagined it to be. They have been so humble and constantly communicated with me by giving exceptional and wonderful ideas. I will definitely look forward to getting more things done

**Nidhisha Ajit**
